Regarding Personal Information Treatment

In consideration of the importance of protecting personal information, we will fully comply with the “Act Concerning Protection of Personal Information (Japan Law No. 57, 2003)”, and ensure the appropriate handling and take proper security measures.

We use personal information that is described in the application document only to the extent necessary for our business of the Japanese language institution, such as business performed by the Ministry of Justice Immigration Bureau, concerning Entry and Registration procedures in Japan (Ex. Application for Certificate of Eligibility) or enrollment and registration management at school.

INTRODUCTION

Kyoto, a city of 1200 years of history and tradition has been always creating new culture by interacting with people from all over the world. The Kyoto Center for Japanese Linguistic Studies Kyoto Japanese Language School which is located in the center of the city has been teaching Japanese since its founding in 1950.

Considering the movement of the Agency for Cultural Affairs into Kyoto and the 40 million foreign tourists plan by the Japanese government, we take “Power of culture, the new challenge of Japanese-language education” as our theme.

We would like to open up a new epoch of Japanese education, a freer and more original language and culture on the basis of history and tradition and be a stronghold of study and interaction by Japanese learners all over the world and others such as companies, political offices, communities, and universities.

COURSE OUTLINES

Class composition is determined by level. The study period of each level is one term (6 months).

Level	Study contents (Listening / Speaking / Reading / Writing)	Kanji	JLPT Level
Beginner	We have classes for students with no previous background in Japanese, as well as classes for those who have a limited understanding of the language in this level. Each course takes a step-by-step approach to all four skills of reading, writing, listening, and speaking. Students at this level will learn everyday conversation as well as the reading and writing of simple sentences. Classes will proceed with a focus on conversation and the organization of communication.	400	N5 ∩ N4
Inter- mediate I	This level is intended for those who have studied Japanese for approximately 400 hours. Students will improve their understanding of sentence patterns and grammatical items learned at the beginning level, and proceed to a more functionally based approach to expressing themselves in Japanese. The aim of the course is to enable students to both comprehend and produce longer stretches of spoken and written discourse. Students will also learn to write more complex compositions.	800	N3 ∩ N2
Inter- mediate 2	At this stage, in preparation for the advanced level, students will focus on reading comprehension, conversation at a relatively complex level, and the basic writing of reports, papers and the like. Reading activities will include the close reading of critiques and novels, as well as speed-reading of newspaper and magazine articles. Students will also begin preparation for the “Examination for Japanese University Admission for International Students (EJU)” or “Japanese Language Proficiency Test”.	1000	N2 ∩ N1
Advanced 1	This course seeks to improve students’ applied ability in Japanese so that they may study and conduct high-level research in their individual fields of specialization. Materials for reading comprehension will include works of literature, critiques, and coverage of current events. Writing activities will focus on how to compose sentences when writing reports and papers. As for speaking skills, the course aims to enable students to participate in discussions and make oral presentations on relatively difficult topics. It also seeks to provide students with a systematic understanding of the Japanese language and of Japan today.	1200	N1
Advanced 2	This course builds on the content of the Advanced I course and, by taking into account students’ individual needs, seeks to deepen students’ applied knowledge of their fields of specialization.	1200+	N1+

Long-term course

<INTENSIVE COURSE>

This is a full-time course, which meets 20 hours per week, and is intended for students wishing to study Japanese intensively, such as those who wish to go to higher education in Japan, work for Japanese companies or learn Japanese art and culture. We provide the option of “Business class” or “Art and Culture Study class” in both the intermediate and advanced classes. APPLICATION PROCEDURE AND ENROLLEMENT FORMALITIES

Applications from abroad

- 1) Either the applicant him/herself or the applicant's guarantor must send or visit our school and submit all the necessary documents required for the application with the screening fee.
The application will not be accepted unless all the necessary documents are included.
*If you send the necessary documents by post, our school will inform you about how to pay screening fee after we receive the documents.
*The applicant's guarantor must show his/her identification when s/he submits application documents (driver's license, passport, resident card) to school.
- 2) The screening by the school will be completed in approximately two weeks after all the documents are submitted. For successful applicants, the school will apply to the Kyoto branch of the Osaka Immigration Office for a "Certificate of Eligibility", which qualifies the applicant for a visa. Please note that this screening by immigration authorities will take about 3 months.
- 3) After the screening by immigration officials, a Certificate of Eligibility will be granted to the applicant (if s/he passed) and the results will be reported to the school. At this time, the applicant must transfer registration and tuition fees by the appointed date. After making this payment, the applicant will receive the Certificate of Eligibility.
- 4) Overseas applicants should hand in this certificate, together with a valid passport, to the nearest Japanese Embassy or Consulate in their country and file a "Student" visa application. Please be aware that the Certificate of Eligibility is only valid for three months after the date of issue, and it ceases to be valid if you do not enter Japan within the three-month period.
- 5) New students should come to Japan approximately 1 week prior to the beginning of each class. Also, notify the date of expected arrival in advance to the school as soon as the date is fixed. Upon arrival, they should notify the school immediately, and on the appointed day come to the school with passport in order to take the placement test.
- 6) New students must attend orientation sessions. Topics covered will include important rules and regulations, as well as various administrative details.

*About visas and residence status:

The "visa" is actually a "recommendation for landing/entering the country," rather than "permission to land/enter the country." This is because a "recommendation for entering the country" is only a document which acknowledges that a person who has been granted a visa meets the criteria pertaining to entering and residing in Japan that are required for the visa itself. Once you have received your visa, your "residence status" and "period of stay" will be determined at the time you enter Japan. The residence status for those people seeking to study Japanese is "Student". The period of stay is six months or one year or one year and three months. You may apply for extension of this period of stay every six months or every one year or every one year and three months. The maximum period of time you may study at a Japanese language school with "Student" status is two years. (The two-year course only begins in April at our school.)

Applications from Japan

For those residing in Japan who do not need to change their residence status to "Student" (i.e., those whose status is "Permanent Resident", "Spouse or Child of Japanese National", "Professor" or "Religious Activities"), or those residing in Japan whose status is "Designated Activities (i.e., Working Holiday)", please follow the steps below.

- 1) The applicant must come to the school together with the guarantor in order to submit the following materials. We will conduct an interview and a confirmation upon his/her presentation of these documents: (Additional documents may be requested.)

- 4) New students must attend orientation sessions. Topics covered will include important rules and regulations, as well as various administrative details.

STUDENT LIFE

1. Attendance

Students enrolled in the Intensive Course must attend classes everyday. If a student must miss a class due to illness or some other unavoidable reason, s/he must notify the school in advance. If absences exceed 10% of the total number of class hours, the student's application for visa extension may not be approved, or the term of the visa may be shortened.

2. Advancement to a higher level class

A student's class level depends upon the results of his/her interview and placement test. Advancement to a higher level class at the end of the term will depend upon the overall result of periodic tests, class behavior, and class attendance records. Permission for advancement or for continuation in any given term may be withheld if the student's class attendance, behavior, or grades are considered to be very low or questionable, or if the student violates any of the rules of the school or the Immigration Office.

3. Resident card

A resident card will be issued at port of entry to all foreign nationals who will be residing in Japan for the mid- to long-term range with a residency status such as "Student", "Specialist in Humanities/International Services", "Spouse or Child of Japanese National," "Long Term Resident," or "Designated Activities". Those who have received a resident card are asked to visit and give notice to the municipal office where they live, with their resident card, designated form and passport within 14 days of finding a place of residence. Please carry your resident card with you at all times in Japan.

4. Extension of period of stay

A student may renew his/her residence status (“Student”) every six months or one year or one year and three months by presenting the “Application for Extension of Period of Stay”, together with the student’s own Enrollment Certificate, Grade Certificate, National Health Insurance Certificate and Certificate of employment (for part time employees) to the Immigration Office. For each renewal, the student must certify to the Immigration Office that the anticipated expenses for studying in Japan (stated in the “Letter of Agreement Regarding Payment” completed by the sponsor upon entering Japan) have been met in one of the following ways.

Case 1: Expenses sent by a sponsor in your country (abroad)

- Student’s bank passbook showing that funds have been wired from the sponsor, Certificate showing that funds have been sent from the sponsor (e.g. notification of remittance).

Case 2: Expenses sent by the sponsor within Japan

- Student’s bank passbook showing that funds have been wired from the sponsor

Case 3: Expenses paid by the applicant

- Certificate of grant/school scholarship authorization or Certificate of bank account balance of the student

5. Part-time work (“Engage in activity other than that permitted under the status of residence previously granted”)

Students cannot work under the “Student” status of residence. Those students wishing to obtain a part-time job must first apply for and obtain special permission to do so from the Immigration Office. Students who are granted such permission will only be allowed to work for a total of 28 hours or less per week. Please be aware that the kinds of work that you are allowed to do are limited and difficult for foreign students to find, and some work such as working at midnight or in an entertainment facility (e.g. a game center) are not permitted.

6. Advancement to higher education

Our school conducts periodic group information sessions throughout the year as well as consulting on an individual basis for those students who wish to continue their studies at a Japanese university, graduate school, or the like.

*In order to enter a Japanese university or other institution of higher education, you must have completed a program of 12 years of formal education. Depending upon the country, there are some cases in which a program of 11 years of formal education is the equivalent of Japanese secondary education; however, such programs do not meet Japanese higher education admissions standards.

It is necessary for students who intend to enter a Japanese university to take the Examination for Japanese University Admission for International Students”(EJU). This test examines “Japanese language ability” and “basic learning ability”. The contents of the subjects are “Japanese”, “science”, “general knowledge” and “mathematics”. “Japanese language” consists of “description giving”, “reading”, “listening”, and “listening- reading comprehension”. This test will be held two times a year, in June and November.

Recently, Japanese universities expect students to take the “Japanese language ability” examination in “Examination for Japanese University Admission for International Students” (EJU). Students who apply to a public or national university will not only need to take the “Japanese language ability” examination, but may also need to take any or all of the other examinations, depending on the requirements of the schools to which they applied.

Our school provides guidance and practice tests for students who request it.

7. Lodging

Our school has 1 dormitory, 2 apartments and 1 'Gakusei Kaikan (Dormitory for International Students) in contract. Living expenses for students residing in Kyoto are at least 110,000 yen per month, so students should give sufficient consideration to these expenses before coming to Japan. In addition, students are not allowed to continue staying in a student dormitory or the contract apartment after a course.

*In Japan, there are systems of Shikikin (deposit) and Reikin (key money) for renting a room.

In general, you must pay Shikikin and Reikin equivalent to three-month rent in addition to the first month's rent.

8. Health care

Our school conducts a health check for all students of the foreign student visa after admission. We also advise students about enrollment in the National Health Insurance plan. Those who expect to stay in Japan for one year or more must enroll in the National Health Insurance plan. Medical expenses are extremely high in Japan. Students should be aware that even if they will be staying in Japan for less than one year, they need health insurance. Students may enroll in an insurance plan in their home country that will provide coverage during their stay in Japan.

We take out an "Accident compensation insurance system for Japanese Language Schools".

If you have national health insurance in Japan, this policy covers the remaining 30% of the cost of medical care that students are normally supposed to pay.

It also covers liability damages (up to 30 million yen) except for car and motorbike accidents.

In addition, in the case that you are admitted to a hospital, this policy the cost of medical care and the travel expenses for your family to visit you in Japan (up to 3 million yen).
